Leadership Experience

Founder and Chief, Bengali.AI Dec 2017-

Bengali.AI is a non-profit initiative from Bangladesh that is focused on building crowdsourced, metadata rich ML datasets for Bengali Vision-NLP and open-sourcing them through AI competitions on Kaggle. On 2020, Bengali.AI launched a featured competition supported by a Kaggle research grant of 120K USD. Currently, I'm performing a supervisory role for the ongoing research projects. [url]

Current Projects

Visualizing and Improving Implicit Neural Representations using Spline Theory with Prof. Richard Baraniuk.

Controlling GAN/VAE Generation via Spline Insights of Deep Learning with Prof. Richard Baraniuk.
